December 18, 2002

Commissioner:

Prior to examination, please amend the above-referenced application as follows:

In the Claims:

Add claims 23 and 24 as follows:

9. A cutting element comprising:

a hard material body having an end surface and a periphery defining a circumference, the end surface comprising a canted portion extending to the periphery and an uncanted portion extending to the periphery, wherein the canted portion intersects the periphery along a periphery line, and wherein the periphery line continuously extends around more than half of the circumference; and

an ultra hard material layer formed over the end surface having an exposed upper surface.
